PROFESSIONAL SUMMARY

Results-driven UI/UX Designer with proven experience designing responsive web and mobile interfaces that enhance usability and accessibility. Expertise in user-centered design, iterative prototyping, and translating complex requirements into intuitive solutions. I use AI-assisted tools to accelerate design workflows while ensuring user-centered and business-focused design decisions. Strong collaborator with front-end development skills (HTML, CSS) and a track record of delivering impactful designs that align with business objectives. Seeking opportunities in UAE to contribute to innovative digital products.

CORE COMPETENCIES

- User Research & Analysis • User Interface Design • User Experience Design • Wireframing & Prototyping
- Responsive Web Design • Mobile App Design (iOS/Android) • Front-End Development • Design Systems
- Usability Testing • Information Architecture • Accessibility Compliance (WCAG) • Agile Methodology
- HTML5, CSS3 • Figma, Adobe XD, Framer, Sketch • Problem Solving & Team Collaboration

AI-ASSISTED DESIGN TOOLS

Figma AI – Auto layout, component generation, rapid UI iterations

Google Stitch / Galileo AI – Text-to-UI screen generation

Uizard – AI wireframing & quick mockup creation

ChatGPT – UX writing, user flows, idea validation & design documentation

Midjourney / DALL-E – Visual concepts & UI inspiration

PROFESSIONAL EXPERIENCE

UI/UX & Front-End Designer

MRA Consulting Services | 2025

Client Website (Live Project) - Responsive Web Design

- Led end-to-end UI/UX design and front-end development for a live client website.
- Translated Figma designs into production-ready code (HTML, CSS, JavaScript) with pixel-perfect accuracy
- Implemented responsive design principles ensuring consistent UX across desktop, tablet, and mobile devices
- Ensured WCAG accessibility compliance and optimized usability through iterative testing
- Collaborated cross-functionally on testing, deployment preparation, and quality assurance

UI/UX Designer

Hara Hachi Bu | 2025

Herbal Wellness Mobile App - Product Design

- Conducted user research and interviews to understand health-focused tea selection behavior and pain points
- Created user personas, journey maps, and user flows to guide product strategy and design decisions
- Designed 25+ high-fidelity UI screens including product discovery, detailed views, and checkout flow
- Improved product discoverability and reduced decision-making steps by 40% through simplified navigation
- Developed reusable component library and design system to streamline development workflow
- Delivered functional high-fidelity prototype demonstrating complete user interactions and micro-animations

KEY PROJECTS & PORTFOLIO WORK

Vian Jewellery – Luxury E-Commerce Website

- Developed responsive luxury jewellery website UI with elegant spacing, typography, and premium aesthetics
- Implemented smooth interactions and animations using JavaScript to enhance user engagement
- Applied mobile-first design approach ensuring optimal experience across all device sizes

NutriEase – Smart Nutrition & Fitness App

- Designed comprehensive nutrition tracking and fitness planning mobile app with focus on user retention
- Created intuitive data visualization for nutrition metrics and progress tracking

Additional Portfolio Projects:

- E-Commerce Mobile App Design - Complete shopping experience with streamlined checkout process
- PaisaPlan (Personal Finance Website) - Comprehensive financial planning platform with budget tracking
- ExpatEase (Finance App for Expat Workers UI/UX Concept) - Designed a mobile finance app for expat users to manage salary, expenses, remittance, and shared bills.
