WORK EXPERIENCE

MRA Consulting Services Client Website – UI/UX & Front-End Designer

Live Client Project | Responsive Website | 2025

Tools: HTML, CSS, JavaScript, Figma

Led UI/UX design and front-end development for a live client website

Translated Figma designs into clean, responsive HTML, CSS, and JavaScript

Ensured usability, accessibility, and consistent UI across devices

Collaborated on testing, refinement, and final deployment

Website scheduled for public launch in January 1st 2026

Hara Hachi Bu (Herbal Wellness App) | 2025

- Conducted research with users to understand health-goal-based tea selection behaviour
 - Created personas, journey maps, user flows, and wireframes for core tasks
 - Designed 25+ UI screens including product listing, detail, benefits, and checkout
 - Improved product discovery and reduced decision steps through simplified navigation
 - Built reusable components and design system to support development workflow
 - Delivered a high-fidelity functional prototype showcasing complete interactions
-

PROJECT HIGHLIGHTS

Vian Jewellery – Luxury Website UI

Front-End Mini Project | Responsive Web Design

Tools: HTML, CSS, JavaScript

Developed a luxury jewellery website UI as a front-end practice project

Implemented responsive layouts with attention to spacing and UI details

Added basic interactions and animations using JavaScript

Strengthened front-end and responsive design skills

Other Projects (On Behance):

- NutriEase – Smart Nutrition & Fitness App Design
- E-commerce App Design

Case study documentation in progress (to be published on Behance)

- PaisaPlan – Personal Finance website

- ExpatEase – Personal Finance App for Expat Workers (Concept Project)

(Full case studies available on Behance portfolio)
